My Drive CLOUD

Privacy and security for your company files—inside your AWS VPC

Security and control

- Deployed in your AWS account/VPC (not multi-tenant SaaS)
- Encryption in transit (TLS) and at rest (AES-256) with a unique per-deployment key
- JWT-based authentication and role-based access control (users and groups)
- Access logging for user and admin actions
- No content indexing or background scanning—minimizes data exposure
- Files remain in your AWS environment at all times

Online editing

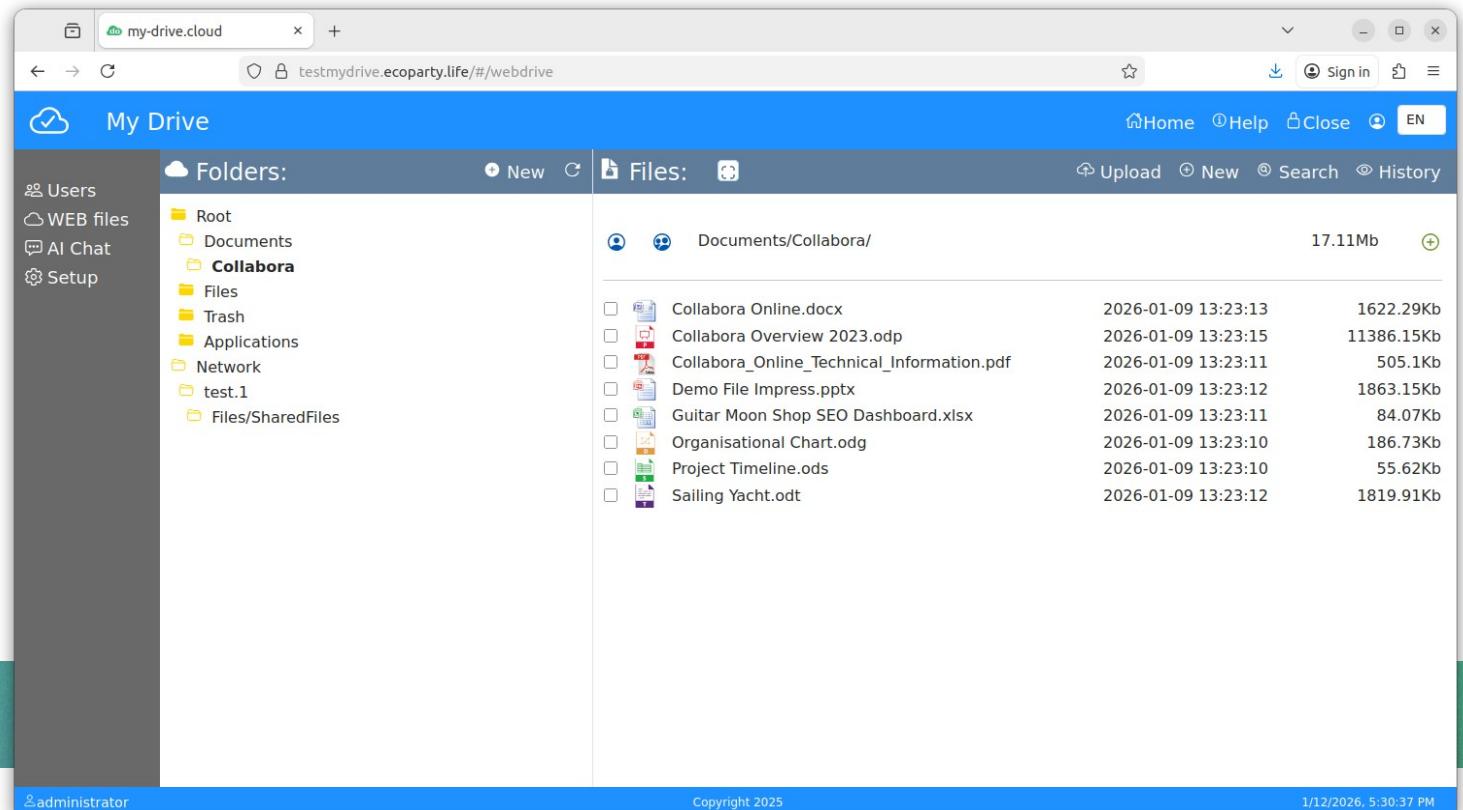

- Built-in editors for Microsoft Office formats: DOC/DOCX, XLS/XLSX, PPT/PPTX
- OpenDocument formats: ODT, ODS, ODP, ODG

Sharing and collaboration

- Share folders and files with users and groups; granular permissions per item
